GETTING STARTED WITH WAFFLE

No ladders. No drills. No fuss.

🧰 To install your Waffle:

- Use a Phillips head screwdriver for permanent wall installs
- Clean surfaces first with an alcohol wipe if using the adhesive strips
- Keep Waffle clear: No bookshelves, plants or giant lava lamps in front of it

📱 To manage your Waffle:

- Download the Density Spaces iOS app for your iPhone or iPad
- Check out the Waffle Installation Guide for detailed best practices

🌐 To connect your Waffle:

- Have your WiFi password handy
- Whitelist these domains—if installing on a corporate network—using your Waffle MAC address(es).

As soon as Waffle is set up, you'll see live availability for your space. Charts like Today's Occupancy and Weekly Occupancy will populate as data rolls in.
